2424 N. W. 42nd Ave., Miami, Fla. 33149. We supply builders, price layers and dealers with Quarr worked Oils, Resps, Rubbs, Copings, Curbs, Treads and Risers, Jambs, Mantles, Hearths, jointed and ready for fitting at the lowest wholesale prices. Orders from the country, containing a remittance, promptly attended to. Cottage builders and speculators would find this book answer their purpose well. Estimates given for all kinds of masonry—address, No. 4, Kensington, Mass.

Attention of Architects, Builders, and others to the PATENT STONE, which is in competition with granite from all other artificial productions for a similar purpose. First made in England, it is now made in this country, and is made to resemble every kind of natural stone as to appearance, from the finest marble to the coarsest sandstone, and to possess all the valuable and enduring properties without being subject to any of the defects. It is especially applicable to all kinds of architectural sculpture, such as columns, pedestals, &c., &c. in place of all varieties of painted and ornamental stone. The price is far below the cost of any natural product, and, in many cases, can be furnished as low as natural cement. Copies of Hints, Circulars, or other Works

the attention of Water Engineers, Manufacturers and others to their PATENT ROPE FILTERING SLABS, which are capable of filtering from 100 to 250 gallons of water per superficial foot of area. These slabs are made of a special material, which is capable of filtering any water, and the slabs can be produced to any required dimensions, and consequently can be adapted to any cistern, tank, or reservoir. By their use, the water is purified, and the slabs are so constructed that they are in no way clogged or impeded in their action. Price per superficial foot - Full descriptions and prices of other descriptions of filters, etc., on application.

IMPORTANT TO BRICKMAKERS AND CONTRACTORS.  
BRANNEY AND PARSONS are the proprietors of HALL'S PATENT BRICK-MAKING MACHINE, capable of moulding 1000 bricks per hour. The machine is made of cast-iron, and is manufactured by hand, and are produced at considerably less cost than communications to be addressed to the Patentees, Messrs. BRANNEY AND PARSONS, 10, Abchurch Lane, London, E.C. 4.

manufactured by J. M. BLANFIELD, Mill Wall, E. of  
of Iowa. Vases, lamps, frames, capitals, rosettes, urns, chimneys,  
shell, trunks, boxes, and a substantial work required  
plaster, and with either granite or a graining oil, may  
be at nearly the same cost as using in cement.

Terre Cotta is more durable than iron, granite, marble, or stone  
and may be made of black, red, and light cream colors of every  
shade. It can be more ornate and delicately wrought than either  
marble and architecture can have their own designs modeled  
and fired in this material without mauling and the chance
